Message

Karnataka, a land of plenty with its bountiful economic and human resources prides to be traversing on its next and higher trajectory of growth. A dynamic mix of factors including industry and investor-friendly climate and policies, ease of doing business, and a committed and skilled workforce have buoyed the ecosystem for delivering the best that the state can offer,

As the State takes a giant leap in its mission and clarion call for entrepreneurship – 'Udyamiagu, UdyogaNeedu' from the prospective stakeholders and youth brigade, it is extremely heartening to witness the surge of interest that the subject has evinced from across the districts of the State. This presents a marvellous opportunity for those concerned to leverage the Government of India's 'Developing Districts as Export Hubs' initiative to fruition. Districts are the lifeline of the economy, the industry and the local people. I am proud to state that each district of Karnataka is a significant powerhouse of resources, knowledge and skills, presenting unique potential across each region.

In this regard, I must say that the District Export Action Plans formulated by the Visvesvaraya Trade Promotion Centre in close coordination with the District Administrations by involving all the stakeholders at the behest of the Government of India presents a mine of opportunities to explore and synergise in the export endeavour. It is heartening to observe that in Phase 1, three districts namely Bengaluru, Mysuru and Chikkamagaluru have been shortlisted by the DGFT for pilot implementation.

Without doubt, the Action Plan/roadmap that has been prudently formulated for implementation would enable districts to introspect and utilise its full potential across both the merchandise and services sector. This would add further steam to the inflow of FDI, manufacturing and exports from the State. Importantly, we believe that the initiative would stimulate employment generation and unleash the latent potential of each district and its workforce to further amplify Karnataka's prowess to the world.

(Dr. Murugesh R. Nirani)

DR. E.V.RAMANA REDDY, IAS

Additional Chief Secretary to Government

Government of Karnataka

ವಾಣಿಜ್ಯ ಮತ್ತು ಕೈಗಾರಿಕೆ ಇಲಾಖೆ

Commerce & Industries Department

Note

The District as Export hub initiative of the Government of India is to transform each district into an export hub, The quintessence behind the initiative was to harness and unleash the hidden potential that sums up each district of the country and its diverse potpourri of strengths.

Karnataka's rapid strides across industry and economic verticals and in particular the recent ranking of number 3 in the Export Preparedness Index (EPI) - 2021 is a welcome move towards achieving greater heights. Further, our state's merchandise exports stood at 25.87 billion USD, surpassing the target pegged at 25 billion USD and Services exports accounted for around USD 102 billion, being leaders in the country. And with *District as Export Hubs* initiative gaining momentum, it only reaffirms the faith of the industry and partners in business to scale up and raise the bar.

The District Export Action Plans, an outcome of the initiative of 'Developing Districts as Export Hubs' provide a great opportunity to review district plans holistically to cover precisely the sunrise and new emerging sectors in the State's economy. The Road Map/action plans suggested for each district reflect the unique potential of the region in the economic landscape. The thrust being provided currently to initiatives like the integrated development of the Logistics Sector, Champion Services, etc. are cardinal steps in realizing the true potential of developing districts as export hubs.

Karnataka looks forward to ramping up exports, manufacturing and employment at the grassroots with the Districts taking on the onus of export-led growth towards self-reliance and sufficiency.

(E.V Ramana Reddy)

Message

The Government of India's vision towards self-reliance and initiatives like Vocal to Local, and Local to Global present a plethora of opportunities for a State like Karnataka across all the districts replete with unique potential and prospects.

The exports from Karnataka have reached new heights by crossing 25 USD Billion in the FY 2021-22. *Developing Districts as Export Hub* places the spotlight on districts as active stakeholders and partners in trade promotion across goods and services.

Karnataka has successfully seized the opportunity to develop Districts as Export Hubs by identifying export potential of each district and working out institutional mechanisms for its implementation. It's heartening that the initiative provides thrust to sectors like Aerospace & Defence, Precision Engineering, EV, FMCG, ESDM, R&D, IT/ITES, Agro-Food processing and traditional products including GI tagged/ legacy products etc.

District Action Plans formulated as a fallout of the District as Export Hub Initiative provides cues towards leveraging products and services that could 'go to market' on a global canvass. Each District Export Action Plan is an incisive compendium with a SWOT analysis of the district coupled with a feasible Action Plan for effective implementation. The Government of Karnataka is committed to enabling its MSMEs, FPO's and Micro-enterprises to realise the benefits of exports, and the various opportunities in global markets, with a spotlight on District led Export Growth. The objective is also to nurture innovation and leverage cutting edge technology for creating an enabling environment for exporters.

Lowering transaction costs, employment generation and making inroads into international markets through e-commerce and digital marketing would be key inputs in this endeavour. And towards this end, Karnataka is engaging itself with leading players in the space. Initiatives like identification/creation of plug-and-play infrastructure through various projects identified across sectors like Aerospace, Textiles, multi-sector, etc., are small steps in this direction.

(Gunjan Krishna)

Commissioner for Industrial Development and
Director of Industries & Commerce

Bangalore

Context

Background

Hon'ble Prime Minister's announcement on Independence Day to transform every district into an export hub and realise the goal of Atmanirbhar Bharat is intended to accelerate economic growth, generate employment and promote rural development.

Districts as Export Hubs is the first such initiative of Government of India which tries to target export promotion, manufacturing and employment generation at the grass root level and is expected to help realize the true potential of each district.

Through this transformative initiative, Government of India intends to bring about a structural change in the lives of the rural population by linking the local production houses to the global supply chains and contribute to the Atmanirbhar mission.

Central Nodal Agency - Directorate General of Foreign Trade (DGFT)

Directorate General of Foreign Trade (DGFT) is an organisation working under the aegis of Ministry of Commerce and Industry, Government of India. Right from its inception till 1991, when liberalization in the economic policies of the Government took place, this organization has been essentially involved in the regulation and promotion of foreign trade through regulation. Keeping in line with liberalization and globalization and the overall objective of increasing of exports, DGFT has since been assigned the role of "facilitator". The shift was from prohibition and control of imports/ exports to promotion and facilitation of exports/ imports, keeping in view the interests of the country.

This Directorate, with headquarters at in New Delhi, is responsible for formulating and implementing the Foreign Trade Policy with the main objective of promoting India's exports. The DGFT also issues scrips/ authorization to exporters and monitors their corresponding obligations through a network of 24 regional offices.

Bengaluru has a regional office is headed by the Additional Director General of Foreign Trade. This office caters to the needs of

exporters and importers situated in the State of Karnataka. This office implements the various provisions of the Foreign Trade Policy at field level. It also functions as a Foreign Trade facilitator, co-ordinating with other related Export Promotion Organizations.

<https://www.dgft.gov.in/CP/> & <https://jdgft-bangalore.kar.nic.in/>

State Nodal Agency - Visvesvaraya Trade Promotion Centre (VTPC)

Visvesvaraya Trade Promotion Centre (VTPC) is the mandated nodal agency for the promotion of international trade from the State of Karnataka under the aegis of the Department of Industries & Commerce, Govt. of Karnataka. Since its inception in 1965, the Centre has been at the forefront in handholding and facilitating budding exporters to make a mark in the global market. Through a range of programmes, schemes, policies, incentives and concessions, VTPC provides impetus to the Export Units & SEZ's. It acts as a catalyst in representing the grievances/issues in trade to the right authorities for redressal.

The objectives of VTPC are to:

1. Provide a stable and sustainable environment for both the service and merchandise exports in international trade in line with national policy
2. Promote diversification the of State's export basket by assisting various sectors in the state to attain global competitiveness
3. Provide a mechanism for regular appraisal to rationalize imports and reduce the trade balance.

Implementing Agency - District Industries Center in India (DIC)

The District Industries Center (DIC)s play a key role in the Industrial Development in the Districts and are the field units of the Department of Industries and Commerce. They were set up with an objective of providing all the services and support to MSME's under a single roof for the effective development of industrial fabric in the widely dispersed rural areas..

The DIC's are being headed by the Joint Director and are facilitating the implementation of the various State and Union Government Schemes and programmes to promote, facilitate and development of the enterprises to provide employment opportunities in rural and semi-urban areas.

<https://industry.karnataka.gov.in/>

Karnataka Export Strategy

VTPC in coordination with Federation of Indian Export Organisation (FIEO) has developed export strategy for Karnataka. The strategy is valid for a period of five years. The strategy focuses on facilitating Karnataka's exports via various measures related to policy, infrastructure, common facility, ease of doing business, promotion, etc.

Following are the key features of this strategy:

- ▶ Generating awareness via state's website, sector skill council, etc.
- ▶ Promotion and awareness of GI products of the State
- ▶ Participation in international trade fairs
- ▶ Present focused research by reputed agencies/consultants/EPCs enabling the State to penetrate various international markets
- ▶ Constitution of Strategic Implementation Unit under the Chairmanship of the State Export Commissioner, which will act as an advisory body for export promotion.
- ▶ Dissemination of information on country wise standards and certification requirements for the products

The plan outlines the strategy to create towns of export excellence among other interventions.

In order to promote exports at district level, VTPC is developing district wise export plans

for each district of Karnataka.

Committees for Promoting Exports

To create a conducive and favorable export ecosystem and promotion of exports, State Level Export Promotion Committee (SLEPC) & District Level Export Promotion Committee (DLEPC) have been constituted vide G.O. No. CI 168 CSC 2015, Bangalore, dated 22nd July 2015 and G.O. No. CI 21 SPI 2019 (E), Bengaluru, dated 10th February 2020 respectively (Details are enclosed as annexure).

District Export Action plan

District Export Action Plans have been developed for each district with an aim to promote exports.

Objectives

- ▶ To enable MSMEs, farmers and small industries get the benefit of export opportunities in the overseas markets and have concerted focus on district led export growth for self-sufficiency and self-reliance
- ▶ To focus on existing export industries, and to provide them with the necessary support which would further boosts exports from these industries
- ▶ To encourage capacity building for consistently upgrading the quality of exports
- ▶ To attract investments in the district to boost manufacturing and exports and provide an enabling ecosystem for innovation/ use of technology at district level to make the exporters competitive.
- ▶ To provide a simplified, transparent, and responsive regulatory environment for unhindered growth in exports.

Overview of Karnataka's Exports

Karnataka is the bright spot in the developmental story of India. It epitomizes the best of many worlds. Karnataka is a land of ancient heritage, scenic beauty, thriving wildlife, and rich culture. It is also a land of innovation, industry and a rich talent pool.

Karnataka is a significant growth engine of the national economy with the GDP valued at Rs 20.49 lakh crore (\$268 Bn GSDP) for the FY 2021-22, with a projected growth rate of 9.5% . Karnataka is 1st in attracting FDI (40%+) in India, 1st in IT and ITeS exports, 1st in total exports across all states. It is home to many large-scale industries across major sectors such as IT & ITeS, Machine Tools, Aerospace & Defence, ESDM, Biotechnology, R&D, and Engineering Design. From Silk to Precision Manufacturing, the State covers the entire tapestry of industry. As a result, it has emerged as an important link in the global supply chain. The State is driven by Bengaluru - the largest technology base of Asia, and the fourth-largest technology hub in the world.

Karnataka has a thriving export ecosystem and was ranked 3rd in the recently released NITI Aayog's Export Preparedness Index (EPI) Report 2021 state rankings. This has also reflected in the state's export successes – it exported merchandise goods worth USD 25.9 bn (INR 1,93,064 Cr) in FY 2021-22, accounting for 6.1 percent of India's total exports. Karnataka is a leader in the country's services export with its contribution of 41% in the national share valued at USD 102 bn in FY 2021-2022.

While these achievements are significant, the Government of Karnataka is also aggressively working towards further improving the ecosystem through assisting SME's, FPO's, and traders by developing export infrastructure across the state through the Government of India's Trade Infrastructure Export Scheme (TIES). As a result, the state is one of the leading states to get approvals under TIES.

It is a major exporter of petroleum products, electrical machinery, aerospace components, precision engineering, auto and auto components, organic chemicals, readymade garments, apparels & made-ups, pharmaceuticals, plastic components, Jewellery and commodities such as coffee, spices, silk, cashew nuts, incenses and handicrafts.

Bengaluru is one of the biggest success stories of economic development in India, becoming a global hub for multiple sectors. Inspired by the growth of Bengaluru, the government has turned its attention towards other cities in Karnataka under its 'Beyond Bengaluru' initiative to bring about a similar growth trajectory for these cities. This is operationalized by strategic policy interventions and by creating a dynamic ecosystem with sharp focus on infrastructure development, increasing the talent availability and bettering market access. It is expected that such initiatives should lead to increasing demand from IT/GCC/ESDM companies to spread their wings in Tier II & III cities.

Karnataka is creating conducive environment for industrial growth and is guided by transparent sectoral policies that provide extensive support for new industries and entrepreneurs. Karnataka is a leader in the

Ease of Doing Business. Its business friendly environment, transparent processes, and simplified government rules and regulations have made it easier not just for large companies but also for MSMEs and startups.

Trade and Commerce will be one of the key enablers for India's economic growth, as India plans to achieve USD 1 trillion exports each in goods and services by 2030. The Government of India has also recognized the importance of focusing upon districts as development hubs, coming out with several initiatives such as the Aspirational Districts, District as an Export Hub Initiative and others.

As India lays down a roadmap towards achieving the Hon'ble Prime Minister's Vision of a USD 5 trillion economy, a major enabling factor would be transforming districts into export hubs. It will require each district to build upon their capabilities to boost production and connect businesses to foreign markets. Visvesvaraya Trade Promotion Centre (VTPC) is the mandated nodal agency for promotion of international trade for the State of Karnataka under the aegis of the Department of Industries and Commerce and has developed district wise export plans in active participation of District administration, DGFT, DIC's, Industry associations and all the stakeholders for each of the 30 districts.

BALLARI

1. District Profile- Ballari

Ballari district is located in the eastern side of Karnataka state. This district is bounded by Raichur District on the north, Koppal District on the west, Chitradurga District and Davanagere District on the south, and Anantapur District and Kurnool District of Andhra Pradesh on the east.

1.1 District Fact sheet

Geography	Coordinates	Population (Census 2011)
Located in the eastern side of Karnataka state	North Latitude: 15° 30' and 15°50' East Longitude: 75° 40' and 77° 11'	Total: 24,52,595 Males: 12,36,954 Females: 12,15,641
No. of Villages	No. of Hoblis	No. of Gram Panchayats
-	36	199
No. of Municipalities	Talukas	Sex Ratio
13	11	993 Females per 1000 males

*- Current prices

1.3 Agriculture Profile

Agriculture is a major component of the district economy. 75% of its total labor force is dependent on agriculture for its livelihood. Around 55 per cent of the land in the district is under cultivation. The important crops grown are cotton, jowar, groundnuts, rice, sunflowers, and cereals. The district is producing and exporting agricultural crops like Onions, Shallots, Garlic, Leeks, Ginger, Saffron, Turmeric (Curcuma), Thyme, Bay Leaves, Pepper, Rice, Buckwheat, Millet and Canary Seed and Other Cereals. The major export destinations for these products are Hong Kong, Malaysia, Singapore, Saudi Arabia, U.S.A, Malaysia, Australia, Cambodia, Canada, France, Germany, Ghana, Italy among many others. The main source of irrigation is Tungabhadra Dam. The canal network accounts for 64% of the district's irrigated area. Important rivers are Tungabhadra, Hagari and Chikkahagari.

Ballari district is rich in natural resources which need to be tapped to a great extent for overall development of the district. This district is endowed with rich mineral resources. It has both metallic and non-metallic minerals. The metallic minerals include iron ore, manganese ore, redoxide, gold, copper and lead. The non-metallic minerals include andalusite, asbestos, corundum, clay, dolomite, limestone, moulding sand, quartz, soap stone, granite, and red ochre. The metallic minerals are abundant in only three talukas, Sanduru, Hosapete and Ballari in the order of mining activity intensity. The district houses rice and puffed rice processing cluster.

1.4 Industrial Profile

Major Sectors

Iron & Steel: Ballari district has 25% of India's Iron ore reserves. The Steel City of south India, Ballari is the second-fastest growing city in the state of Karnataka. There is already presence of industry giant – JSW. JSW Steel plant at Ballari is the largest steel plant producing facility in the country with a capacity of 12 MTPA.

Jeans Industry: Ballari is famous for jeans and is called “Jeans Hub”. It is the second important garment cluster in Karnataka which is known for its specialization in manufacturing jeans. It also manufactures formal wear, chinos, and half pants. More than 10% population is directly or indirectly connected with Garment industry. Ballari has skilled manpower and resources to produce the jeans and related products. Also, global brands/buyers are looking towards India for sourcing garments as an alternate to China.

Granite: Ballari district is known for RED and GREY granite which has a huge global demand. Global demand of granite is estimated to be USD 3.8 Bn. To ease the process of leasing, returns, demand collection & assessment etc., the state has adopted a new system of e-permitting online through Integrated Lease Management System (ILMS). The overall intention is to introduce a controllable mechanism and framework for transportation of minerals.

Engineering Goods: There are approximately 45-50 engineering companies in the district; the industry comprises of steel fabrication, structural engineering works, electrical and civil engineering and there is immense potential for Orthopaedic Implants. The investment will be backed by Karnataka's robust Industrial Policy, 2020-25. Karnataka is the second highest producer of Special Purpose Machinery and Heavy Electrical Machinery in the country. It is the only state among the top five capital goods producing states to produce more special purpose machinery than general purpose machinery (in terms of value), clearly showcasing state's capability in manufacturing high value products.

Number of Industrial Units

The district has 13 Mega industries and 109 Large and Medium Scale Industries in Ballari. There are 5507 MSMEs registered under Udyam Registration as of 9th August 2021.

The US\$ 13 billion JSW Group which is ranked among India's leading business houses has its presence in Ballari.

Some of the major Industries are as below:

Source: VTPC (As on 9th August 2021)

Key Industrial Areas & Corridors

There are 10 industrial areas and 6 industrial estates in Ballari.

To boost the industrialization, the State plans to setup State Industrial Corridors (SIC) at Chitradurga-Ballari-Gulbarga-Bidar route. Ballari is amongst one of the districts proposed as industrial node under the Special Investment Region (SIR).

Key Investments (During 2015-2021)

Approximately INR 61,250.56 Cr., worth of investment applications were approved by the High-Power Empowered Committee during the period 2015-2021. The key investments were largely from sectors comprising Iron & Steel, Power, Cement.

Source: Karnataka Udyog Mitra, <https://kum.karnataka.gov.in/IndustryDetails.aspx>

Major Investors

1.5 Logistics & Connectivity

The district has good connectivity in terms of Roads, Air, Rail & Ports.

1.6 Utilities

- Water Supply:** Tungabhadra, Hagari and Chikkahagari are the rivers in Ballari district. The district heavily relies on Tungabhadra Dam as its main source for irrigation.
- Power Supply:** The Ballari Thermal Power Station is the second-largest thermal plant in Karnataka generating 500 MW of power. The Kaduthini Ballari Thermal Power Station, Hampi Powerhouse and the Munirabad Powerhouse form the main sources of electricity in the district.

1.7 Support Infrastructure

A well-developed support ecosystem and infrastructure exists at Ballari, comprising of State-of-the-art facilities, Schools & Colleges, Hospitals.

1.8 Tourism in Ballari

Ballari houses the world-renowned ruins of Hampi which are spread over 4,100 hectares (16 sq mile). It has been described by UNESCO as an “austere, grandiose site” of more than 1,600 surviving remains of the last great Hindu kingdom in South India that includes “forts, riverside features, royal and sacred complexes, temples, shrines, pillared halls, mandapas, memorial structures, water structures and others”.

Following are some of the major tourist attractions of the city:

- Patal Lingeswar Temple
- Elephant Stables
- Badavaalinga
- Hazara Ramaswamy
- Daroji Sloth Bear Sanctuary
- Virupaksha Temple

2. Export Scenario - Ballari

2.1 Karnataka's Exports

Karnataka is one of the top exporting states in India and is ranked 3rd in the recently released NITI Aayog's Export Preparedness Index (EPI) Report 2021. For the FY 2021-2022, the state is ranked 4th in Merchandise exports and 1st in Services exports.

During FY 2021-22, Karnataka exported goods worth USD 25.9 bn (INR 1,93,064 Cr), accounting for a 6.1 percent share of India's exports. Karnataka's merchandise exports have shown a tremendous growth of 71.5% in 2021-22 as compared to 2020-21.

Source: DGCIS 2021

2.2 Analysis of Karnataka's Exports

Top Commodities

Karnataka exports more than 5,140 products. Its top 10 products contribute 71 per cent of the total merchandise exports.

The top 10 exported products include electrical machinery & equipment, iron & steel, machinery and mechanical appliances, garment, mineral fuels and oils, organic chemicals, pharmaceutical products, optical & medical instruments, coffee & spices, road vehicles & parts.

Top Markets

Karnataka's Top 15 markets contribute 69 per cent to its exports. Major markets are USA (21.1%), China (7%), UAE (5.1%), Germany (4.1%), Singapore (3.9%), UK (3.6%), Italy (3.5%), Netherlands (2.9%), Thailand (2.9%), France (2.9%), Vietnam (2.8%), Belgium (2.6%), Japan (2.2), Spain (2.1%) & Bangladesh (1.9%).

3. SWOT Analysis – Ballari

4. Target Export Products – Ballari

The target export potential products for this action plan are as identified below by agencies of Government of India (GoI) and Government of Karnataka (GoK).

Government Body	Scheme/Initiative	Identified Product
ODOFP product identified by State Government under GOI scheme	PM Formalization of Micro Food Processing Enterprises Scheme (PMFME)	• Fig
High visible product identified by DLEPC	Developing Districts as Export Hubs	• Granite • Jeans Pant/ Apparels • Jute Products • Engineering Products/ Electrical Machinery and Transport Equipment • Iron ore-based value-added products • Pomegranate • Chilies
Department of Industries and Commerce, GoK	One District One Product (ODOP)	• Steel and Allied activities

In accordance with the above, following products with export potential have been identified for Ballari:

- Fig
- Pomegranate
- Chilies
- Granite
- Jeans Pant/Apparels
- Jute Products
- Engineering Products/ Electrical Machinery and Transport Equipment
- Iron ore-based value-added products/ Steel and Allied activities

5. Export Action Plan- Ballari

Sl. No	Intervention	Strategy	Action	Responsibility
1	Trade Promotion	Promote local product through various mediums - digital/ physical	Promote local products through various mediums - digital/ physical/ events/ B2B/ buyer seller events etc	DLEPC and Export Promotion Councils as in Annexures 7.2 & 7.3 respectively
			Tie up with various e-commerce players to market products on their online platforms	DLEPC & VTPC
		Enhance international access for exporters	Facilitate tie ups with international buyers of products through participation in trade fairs, global events, engagement with trade bodies for identified markets	Export Promotion Councils as in Annexure 7.3
		Enhance participation in GOI/ GOK Schemes for export promotion	Develop a compendium of schemes where assistance is available to exporters.	VTPC
			Karnataka Vanijya Mitra online platform to actively target and track various schemes developed by GoI/ GoK	VTPC
2	Market Intelligence Cell	Identify target markets and develop export intelligence trends	Karnataka Vanijya Mitra online platform to identify target markets, export trends	VTPC
		Identify and develop new products with export potential or value-added exports	• Invite Investors to harness the potential of value addition. • Support MSME's to setup units • Continuous engagement with exporters, associations, trade bodies etc to identify new avenues for exports • Engaging with Missions abroad to identify the potential buyers.	DLEPC

3	Infrastructure Augmentation	Conduct an infrastructure assessment study	To undertake an infrastructure assessment study for identified products	DLEPC
			Demand Assessment Study for setting up of Cold Chain infrastructure in the district	DLEPC
			Capitalize on the existing TIES scheme to develop export Infrastructure (comprising of cold storages, testing labs, R&D facilities etc)	DLEPC
		Develop processing infrastructure (cluster/ parks)	Set up of near farm processing clusters with integrated facilities such as cold storage, pack house, etc.	DLEPC
		Develop Agri Export Zone	Identify and propose Agri Export Zones in consultation with the State Agriculture/ Horticulture Department	DLEPC
		Good Agri practices	The State Agriculture/ Horticulture Departments should engage the FPO's for adopting the best agriculture and health practices	DLEPC
4	Skill Development	Provide skill development training for Manufacturing/ processing	Tie up with skill development councils as in Annexure – 7.4	DLEPC
			Draw the calendar of events for training	
			Conduct Exposure tours across the country	
		Provide training on Export procedures	Tie up with export promotion councils and bodies as in Annexures- 7.3, 7.4 & 7.5, for understanding the following:	DLEPC & VTPC

			• Licenses & Processes • Regulations • Labelling • Skills • Certifications • Standards such as Codex	
5	Facilitation of exporters	Establish Grievance redressal cell/ help desk	Karnataka Vanijya Mitra online platform to provide all information required by exporters such as	VTPC
			• Export processes • Registration/ certification requirements • Documentation both commercial and regulatory • Banking • Custom procedures • NTBs • FTAs/ PTAs • Logistics	
		Outreach	Organize outreach programs/ workshops for the farmers/exporters	DLEPC

6. TIES Action Plan- Ballari

1. Necessary plug and play infrastructure required for export promotion to support the MSME's to be established with the support of TIES funding available under the Ministry of Commerce, Government of India.
2. Necessary Product quality testing and certification labs for Phyto sanitary requirements for the export obligation to be established by the facilitating Government agencies and private players in PPP mode under TIES scheme.
3. The option of up-gradation of infrastructure projects with overwhelming export linkages like the cold storages, trade promotion centres, CFS's/ ICDs/ dry ports, export warehousing and packaging, airports cargo terminuses and last and first mile connectivity projects related to export logistics to support trade to be considered.
4. In addition, studies related to Export logistics including identification of sector specific infrastructure gaps and mapping of assets created may be worked out for funding under TIES Scheme.
5. Any export infrastructure gap regarding the first and last mile connectivity to be proposed for funding by convergence of State schemes for funding under the TIES Scheme and PM Gathi Shakti Special Assistance Scheme.
